

In Part 4 of GJD's Artist Interview, Ken Volpe spends time with session ace, Carl Verheyen. They continue an in depth discussion about Carl's gear. Carl gets into how he uses a 4 amp set-up and how he switched back to traditional amps from rack gear back in the day. He also tells Ken about his vintage Strats and how he deals with the pick-up noise in a live and in a studio situation.

Enjoy Session 4 with guitar master Carl Verheyen!
