

In Part 2 of our Behind The Scenes Interview with Greg Germino, Ken and Greg discuss the difference between a master volume amp and a non master volume amp. They also talk about practical ways to reduce volume without losing too much tone. Greg then reveals his thoughts about his favorite contemporary players. At the end of the session, they get into some great detail about Celestion Heritage series speakers and Scumback speakers.

Enjoy Session 2 with Amp Master Greg Germino!
