

## Reverend Rolls Out New Daredevil HB Electric Guitar

Wednesday, 03 October 2007 20:31

---

Today Reverend announced a new classic double-cutaway guitar with a full thickness body, and ample amount of wood where the neck meets the body.

The bridge pickup is slightly hotter than a vintage PAF, and the neck pickup slightly cleaner. All the rawness, midrange presence, and upper-fret access you'd expect, but more versatility and a stable neck joint.

- \* Solid mahogany
- \* Two Reverend humbucker pickups
- \* 3-Way pickup switch
- \* Wilkinson staggered EZ-Lock tuners
- \* Volume, Tone, and Bass Contour (bass roll off) controls
- \* 24.75" scale, set-neck one-piece mahogany with graphite nut and tilt-back headstock
- \* Dual-action truss rod
- \* Rosewood fingerboard with 12" radius and 22 frets
- \* List price: \$699

### Options:

- \* Wine Red
  
- \* Les Trem tremolo with precision roller bridge (List price: \$249)
