

Alfred announced their distribution of the all-new SHREDHED product line. A unique line of entertainment and educational products for guitarists, SHREDHED is designed for uninterrupted playing so guitarists can jam to their hearts' content.

SHREDHED series is an innovative line of educational products created by InkTree, Inc. The new twist on traditional sheet music allows guitarists to view an entire song in an easy-to-view display, allowing multiple users to learn together, eliminating the need for music stands, and most importantly ensuring that guitarists' fingers never leave their instruments to flip pages. The SHREDHED display can be configured into a convenient three-pocket folder that renders it easy to carry and store, giant TAB poster, and a free-standing triangular display. SHREDHED is loaded with song and artist related content. Artists like Green Day, Radiohead, Pantera, Eric Clapton, The Eagles, Grateful Dead, The Black Crowes, R.E.M. and more are showcased on SHREDHED products. The product is dry-erase and is perfect for guitar lessons.

SHREDHED is the recipient of the coveted "Best in Show" Award from NAMM, the most prestigious organization of retailers and manufacturers in the music industry. SHREDHED's unique combination of innovation and quality education renders it a remarkable product for experts and amateurs alike.
