

Video Review: Taylor Solidbody Classic SC

Thursday, 15 January 2009 02:19

Today we are featuring a great new model from Taylor guitars. The Solidbody Classic SC. This guitar features a solid ash body with a single cutaway. The maple neck is a 25.5 scale length with a rosewood board. It also has a beautiful crushed pearl pickguard, a specially designed adjustable aluminum bridge, and 3 noiseless single coil pickups. Sit back and enjoy this new GuitarJamDaily feature with our own Phil Miller rockin' the Taylor Solidbody Classic SC.
